

**VSM RESIN  
FIBER DISCS**

**High-performance discs for  
demanding applications**

# Long-lasting, high-performance discs

Resin fiber discs are manufactured similarly to common coated abrasive discs, with one exception...they feature a vulcanized fiber backing. With such a sturdy backing, this product is ideal for heavy stock removal applications, as well as deburring and flash removal. Additionally, the enhanced backing provides a longer product lifespan.

## The right grain for every application

### VSM ALUMINIUM OXIDE

General purpose grinding for a variety of applications, on most metals.

### VSM ZIRCONIA ALUMINA

Best for high-pressure, abusive metalworking applications.

### VSM CERAMICS

Ideal for medium-high pressure applications on stainless steels, carbon steels, high nickel alloys, and other exotic alloys.

### VSM ACTIROX

Ideal for medium-high pressure applications on stainless steels, carbon steels, and other superalloys.
