Wide Belt Sander

VSM COMPACTGRAIN

Grain type	Aluminum oxide granulate
Bonding	Full-resin bonded
Color	Brown
Backing	Y-Polyester
Flexibility	Very sturdy
Production width	58 in

Materials

Features

Long-term compactgrain abrasive with continuous self-sharpening effect on a very sturdy polyester backing. Reduces grinding costs due to fewer toll changes. Produces a defined surface roughness and accurate gloss values, especially in coil grinding.

Grit range:1)

Benefits

- > Long-term abrasive with continual self-sharpening effect achieves extremely long life
- > Reduction of grinding costs through lower tool consumption and fewer tool changes
- > For uniform workpiece surfaces and surface roughness with constant stock removal rate

Wear pattern of the grain

VSM COMPACTGRAIN series are completely made of granules which consist of numerous abrasive grains. The used grains are torn out by the cutting forces involved whereby unused grain tips are being exposed.
