

# DA920Y

## VSM DIAMOND

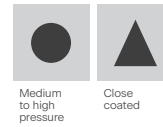

<b>Grain type</b>	Diamond
<b>Bonding</b>	Galvanic
<b>Colour</b>	Silver
<b>Backing</b>	Aramide fiber
<b>Flexibility</b>	Very sturdy
<b>Production width</b>	300 mm

### Materials

### Features

Diamond abrasive fully coated. Suitable for use with materials such as very hard non-ferrous metals or glass. DA920Y is characterised by a very long service life, a consistent surface quality and high temperature resistance.

### Grit range:<sup>1)</sup>

## Benefits

- > Very long service life
- > Consistent surface quality
- > High stock removal
- > Good temperature resistance
- > DA920Y is suitable for machining very hard non-metal-based materials, tungsten carbide, titanium carbide, Silicon carbide, ceramics, glass, porcelain, stones, graphite, composites...
