

# KK772J

## VSM COMPACTGRAIN

Grain type	Aluminum oxide granulate
Bonding	Full-resin bonded
Color	Grey
Backing	J-Polyester
Flexibility	Flexible
Production width	44 in

### Materials

### Features

Long-term abrasive for applications with low contact pressure or in combination with soft contact elements. The flexible backing enables the abrasive belt to mold well around contoured workpieces, such as punched parts. KK772J also achieves very good results in flat grinding when working with stainless steel and unalloyed steel.

### Grit range:<sup>1)</sup>

## Benefits

- > Long-term abrasive with continual self-sharpening effect achieves extremely long service life
- > Reduction of grinding costs through lower tool consumption and fewer tool changes
- > For uniform workpiece surfaces and surface roughness with constant stock removal

## Wear pattern of the grain

VSM COMPACTGRAIN series are completely made of granules which consist of numerous abrasive grains. The used grains are torn out by the cutting forces involved whereby unused grain tips are being exposed.
