VSM COMPACTGRAIN

Grain type	Aluminium oxide granulate
Bonding	Full-resin bonded
Color	Red-brown
Backing	X-Polyester
Flexibility	Sturdy
Production width	44 in

Materials

Features

Long-term compactgrain abrasive with continuous self-sharpening effect that reduces grinding costs due to fewer tool changes and is characterized by constant, very high stock removal with even surface roughness over its entire, very long service life. The additional grinding-active TOP SIZE layer reduces the temperature in the contact area.

Grit range: ¹⁾

Benefits

- > Long-term abrasive with continual self-sharpening effect achieves extremely long service life
- > Reduction of grinding costs through lower tool consumption and fewer tool changes
- > For uniform workpiece surfaces and surface roughness with constant stock removal

Wear pattern of the grain

VSM COMPACTGRAIN series are completely made of granules which consist of numerous abrasive grains. The used grains are torn out by the cutting forces involved whereby unused grain tips are being exposed.
