

XK285T ▶ TOP SIZE

VSM CERAMICS Plus

Grain type	Ceramic
Bonding	Full-resin bonded
Color	Red-brown
Backing	T-Cotton
Flexibility	Semi-flexible
Production width	58 in

Materials

Features

Microcrystalline ceramic grain abrasive with optimized self-sharpening effect on a semi-sturdy cloth backing. Generates maximum stock removal when machining high-alloyed steels and reduces costs. The additional grinding-active TOP SIZE layer reduces the temperature in the contact area.

Grit range:¹⁾

Benefits

- > Optimized self-sharpening effect results in an extremely high stock removal rate thanks to constant recreation of sharp grain points
- > Cost saving when grinding high-alloyed steels thanks to highest possible stock removal rate
- > Developed for repair grinding of turbine blades
- > Extremely long service life
- > High wear resistance
- > Cool grinding and extension of service lives with VSM TOP SIZE additional grinding-active layer

Wear pattern of the grain

Due to their optimized and thus finer microcrystalline structure, VSM CERAMICS Plus series feature an improved self-sharpening effect, which produces much sharper edges.
