

XK747Z

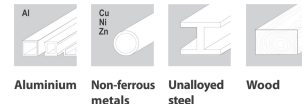

VSM CERAMICS

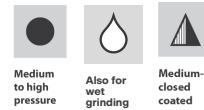

Grain Type	Ceramic
Bonding	Full-resin bonded
Color	Red
Backing	Z-Polyester
Flexibility	Extremely Sturdy
Production Width	1,480 mm

Materials

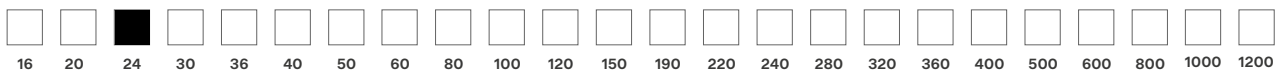

Features

Ceramic grain abrasive with self-sharpening effect, impresses when machining hard surfaces due to its aggressive cut and an extremely long service life.

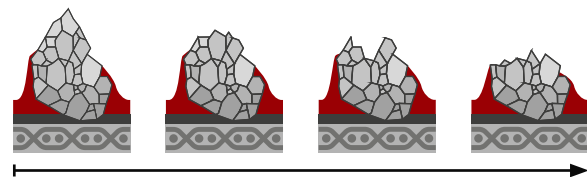

Grit range: ¹⁾

Benefits

- > Self-sharpening effect enables a much higher stock removal thanks to new sharp edges that are constantly being produced
- > Open coat structure to prevent loading
- > Oil and water resistant

Grain technology

The microcrystalline structure of the VSM CERAMICS series enables a much more subtle breaking down of the grain and constantly produces new sharp edges. This ceramic grain and can be used for the toughest applications.
