

XK770Z

VSM CERAMICS

| | |
|-------------------------|-------------------|
| Grain Type | Ceramic |
| Bonding | Full-resin bonded |
| Color | Burgundy |
| Backing | Z-polyester |
| Production Width | 1,480 mm |

Materials

Features

Ceramic abrasive grain with self-sharpening effect, aggressive cut and an extremely long service life. Superior edgewear prevents grains on the edge from falling off.

Grit range: ¹⁾

Benefits

- > The self-sharpening effect enables a much higher stock removal thanks to new sharp edges that are constantly being produced.
- > Extremely resilient
- > Superior edgewear

Grain technology

The microcrystalline structure of the VSM CERAMICS series enables a much more subtle breaking down of the grain and constantly produces new sharp edges. This ceramic grain and can be used for the toughest applications.
